EXPERIENCE

Lantern Hill Advisory – Charlottesville, VA **2026-Present**

Founder

AI and workflow advisory for middle-market businesses and financial-services clients

- Advised a 900+ employee forest-products company on enterprise AI strategy, conducting stakeholder discovery across FP&A, business intelligence, and operations to prioritize high-value use cases and develop an implementation roadmap.
- Built an end-to-end loan origination and portfolio-management platform for a private lender, standardizing underwriting and closing workflows, centralizing deal data, and automating pipeline tracking and portfolio reporting.

Epic Systems – Madison, WI **2021-2026**

Account Executive **2025-2026**

C-suite technology strategy for \$1.59B Silicon Valley health system with 4,480 employees and 21+ care locations

- Owned Epic's executive relationship with the health system, serving as primary strategic advisor to C-suite leadership on technology priorities, product strategy, and long-term platform roadmap.
- Drove adoption of 20+ Epic products over third-party alternatives, influencing \$100mm+ of technology purchasing decisions through analysis of product capabilities, integrations, implementation requirements, and long-term strategic fit.
- Directed 40 members of Epic technical staff supporting the health system, allocating resources across competing priorities and driving resolution of critical operational and technology issues.

Product & Customer Success Lead **2023-2026**

Enterprise security product leadership, M&A integrations, and early-adopter implementations

- Led security workstreams for M&A transitions across three major health systems, supporting organizations representing 160,000+ employees and 70 hospitals through user provisioning, testing, cutover, and go-live.
- Developed company-wide role-based access tools deployed across 100% of new Epic implementations and M&A integrations, standardizing security and user-provisioning workflows across enterprise health systems; served as implementation lead and feature approver for a major identity-management product.
- Led early-adopter and international implementations across the U.S., Europe, and Australia.

Project Manager **2021-2026**

Multi-year enterprise healthcare implementations across 3 continents and clinical, pharmacy, and security workstreams

- Led cross-functional teams of 2–20 analysts across enterprise implementations on 3 continents, including repeated on-site engagements in Europe to align client executives and operational teams through planning, deployment, and go-live.
- Managed end-to-end execution of multi-year implementation programs spanning hundreds of milestones and interdependent deliverables, owning resource allocation, executive reporting, risk mitigation, testing, launch readiness, and post-live optimization.
